Has New Plans

Roger Carr, former Detroit salesman, who announced recently in Olympia, Wash., that scientists could use his body as a "guinea pig" in any experiments they wished to perform to find out about the creeping paralysis with which he is afflicted. He blamed his affliction on 22 blood transfusions he gave during depression days.

Fur Farm Near Here Will Raise Minks, Chinchillas

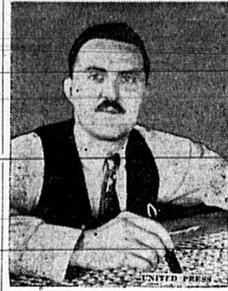

One of the most ambitious corporations to establish itself near Torrance recently is Fur Farms, Incorporated which has already done considerable building and has completed plans for more, on 182nd street in the 2200 block.

"When the goal set at present is reached, the farm will be one of the largest and most modern in the country" according to A. P. Croft, manager of the fox and mink department, who is supervising construction on the grounds at the present time, says the Gardena Valley News which reports: When in complete operation the fur farm will represent an investment of nearly \$100,000.

In the large fenced in area construction of the fox pens is going on at a rapid rate. Seventy-five silver foxes are already established in their new quarters, their beautiful black and silver coats gleaming in the autumn sun. Eventually 500 pair of the valuable animals will be located at the farm.

About Jan. 1 the scope of the fur farm will be enlarged by the addition of mink and chinchilla. There is at present only one large chinchilla farm in the country, the one at Ingleswood, Lloyd Prestwich, manager of

Offers His Life

and manager of the chinchilla division. Plans have been made to eventually house 1,500 mink, and 1,000 chinchillas.

The chinchilla is the most valuable of fur bearing animals. A full length chinchilla coat, exhibited in New York City, was valued at \$63,000. Approximately 150 of the little pelts would be required to make a coat.

Work has been started on the first building for the corporation, the administration building. Two other buildings will be constructed in the near future. Among the owners of Fur Farms, Incorporated, are Mr. Charles Harriman and Mr. Eugene Scott of Los Angeles, and Prestwich. Two others of the owners are residents of Montana.

Climate Least Important In answer to questions concerning the desirability of the Southern California climate for the raising of foxes, specifically, Croft stated that it has been his experience that for silver foxes, the line, kind and form of the animal, and the climate were in that order of importance.

The warm climate has an advantage in that pups, born in March, are not exposed to severe cold. Some disadvantage is experienced from the bright sun of the midsummer and autumn months. Croft stated that silver foxes were quite hardy animals and were susceptible to certain contagious diseases against which they could be and were vaccinated.

San Pedran Dies at Local Hospital

Theodore Kelm, 53, of San Pedro, succumbed at Torrance Memorial hospital early Friday morning following several months' illness. He had been received at the hospital Dec. 9. Mr. Kelm, who was employed by the Harbor Dock and Warehouse company, lived in San Pedro since 1918 and for 15 years was an employee of the Hammond Lumber company. He was survived by his widow, Mrs. Ottilie Kelm, and son Otto. The funeral for this German-born San Pedran was held Monday.

Old Pine Tree Yields Wood for 12 Coffins

ALBUQUERQUE, N.M. (U.P.)—The "old pine tree" that was cut down near here recently had enough wood in it to make "coffins of pine" for a chorus of hillbilly singers. Timber experts, who examined a cross section of the trunk estimated that the tree was "born" about the time the Pilgrims landed at Plymouth. They counted 311 annual rings.

Record Amount of Mail Sent by Local 'Believers,' Conner Says

More mail was received by Santa Claus from Torrance youngsters this year than at any past Christmas time, according to Postmaster Earl Conner this week. The Herald started bravely out to publish all of the letters—but soon discovered that it would take a special edition to report all of them. Here are some which could not be published last week on account of space limitations and the names of boys and girls whose missives were received by Santa.

Intersection Scene of Car Collision

Altho the intersection is protected by a boulevard stop, that did not prevent a collision between two cars at Hawthorne avenue and Torrance boulevard last Thursday. Ray Osso, Los Angeles, and William Jensen, a local resident were the drivers involved. Jensen's car after hitting Jensen's machine grazed a power pole and then continued across a field for 105 feet skid marks showed, according to investigating officers. His car was badly damaged. Osso's machine skidded 10 feet and the front end was damaged.

Mrs. Holloway Goes to Reward

EYE OPENERS --- by Bob Crosby

JUST TO SHOW HIS PEACEFUL INTENTIONS JOHN CECIL RHODES LIVED SIX WEEKS ALONE AND UNARMED AT THE MERCY OF AFRICAN SAVAGES!

THE TURKEY WAS SO NAMED BECAUSE IT WAS THOUGHT IT ORIGINATED THERE!

It was in 1896 that Rhodes set out to colonize parts of Africa. He proved his courage when he pitched his tent at the base of the Matopos hills and lived alone surrounded by hostile savages. At the end of six weeks he was invited to their councils where peace was quickly made.
